## DISCOVER THE MYRIAD BRANDING OPTIONS AND BESPOKE DESIGN POSSIBILITIES

Our Myriad range of soap and paper dispensers come with a multitude of branding and design options. Our customers have the option to distribute our dispensers under their own company's name thanks to our internal branding facility. We also offer own-labelling, a choice of front cover window colours, customisable front cover windows and finishes to suit any business requirement.\*

## MYRIAD BRANDING AND DESIGN OPTIONS

The Myriad range comes in three standard colour options - black front cover and back plate with clear window, white front cover and back plate with blue window and white front cover with grey back plate and grey window.

### OPTION 1: PRINT YOUR COMPANY LOGO ON THE DISPENSER

We offer our customers the option to distribute our dispensers with their logo.

### OPTION 2: CHOOSE A FRONT COVER WINDOW COLOUR

Customise the dispensers with the window colour of your choice. Blue, grey and clear inserts come as standard, other colour options are available.\*

### OPTION 3: CUSTOMISE THE DISPENSER WITH A BESPOKE FRONT COVER WINDOW\*

With the Myriad dispenser range you can make the look of the dispenser unique to your brand or company. Through our innovative manufacturing processes you have the option to have a bespoke front cover window design.

We offer a full design and development service, helping you to create your own company design across the whole range. For a low investment, our design and development team will support you in creating your own dispenser range design.

### OPTION 4: CUSTOMISE THE DISPENSER WITH PHOTO QUALITY PRINTS

This process allows you to have photo quality images printed onto the dispenser, giving you endless design options.

The background of the entire page is a light blue color with a pattern of white technical line drawings. These drawings show various views of soap dispensers, including side profiles, top-down views, and cross-sections. Some drawings include dimension lines labeled 'A' and 'B', indicating specific measurements or components of the devices. The drawings are arranged in a grid-like fashion, creating a technical and industrial aesthetic.
