

# Discover unique Mop Washer features

Calculates automatically the correct amount of detergent and water

Specific and unique features for the Mop

Faster washing cycle

**Automatic Saving System**  
Reduce water consumption and energy costs

With each wash cycle, Automatic Saving determines the weight of load and adds the exact amount of water and energy consumption to meet the right wash result

**Electrical Drain Valve**  
No pump system to avoid blockages

**Intelligent Dosing System**  
Precise detergent dosing (only for Line 6000)

With the Intelligent Dosing feature, the precise amount of detergent will be added automatically according to the weight of the load.

**Lint lid on the drum**  
Easy access for cleaning via drum and heating element inspection

**Efficient Dosing System**  
Superior efficiency and economy

Calculates automatically the correct amount of detergent according to the weight indication from Automatic Saving

**Covered heating element**  
Highly resistant and anti lime

## Mop Range

Electrolux Professional holds global certification in accordance with HACCP. This means that our professional washing equipment meets all method requirements for safe, hygienic handling of washing.
